Education

Degree/Certificate	Institute/Board	CGPA/%	Year
B.Tech., CSE (IoT)	Noida Institute of Engineering and Technology, Greater Noida	8.3	2026
Senior Secondary (CBSE)	JN International School, New Delhi	88.6	2022
Secondary (CBSE)	JN International School, New Delhi	88.6	2020

Experience

- **Ethara AI** *July 2026 – Present*
  Associate – LLM Post Training | Full-time
  - Worked on multiple LLM post-training projects across technical and non-technical domains.
  - Improved model quality through data curation, response evaluation, and prompt optimization.
  - Built and maintained SFT and evaluation datasets.
  - Built multi-architecture (AMD64/ARM64) Docker images to test AI code changes and validate test results.
- **Ethara AI** *Jan 2026 – June 2026*
  LLM Post Training Intern
  - Assisted in LLM data annotation, evaluation, dataset preparation, and prompt engineering.
  - Performed quality checks to improve model responses.

Projects

- **HMS: Hospital Management System**
  Next.js, Prisma, MySQL, CI/CD, AWS EC2
  - Built a full-stack hospital management system with secure role-based modules for Admin, Doctor, and Patient using Next.js and Prisma ORM, deployed on AWS EC2.
  - Integrated a real-time AI-powered chatbot using Together AI API; configured CI/CD via GitHub Actions for automated build, test, and deployment.
- **Autonomous Garbage Sorting System**
  Python, TensorFlow, MobileNetV2, OpenCV, Raspberry Pi
  - Built an autonomous waste segregation system using Raspberry Pi; trained and deployed a MobileNetV2 model to classify waste as biodegradable or non-biodegradable, with OpenCV-based real-time motor control.
- **Smart Classroom Automation System**
  MIT App Inventor, Node.js, NodeMCU, PIR Sensor, ThingSpeak
  - Built an IoT-based classroom automation system using NodeMCU and PIR sensor, with manual/automatic control via a custom MIT App Inventor app and ThingSpeak-based real-time monitoring.

Skills

- **Languages:** C++, Python (Intermediate), Java (Intermediate)
- **LLM/AI:** LLM Post-Training, Data Curation, LLM Evaluation, Prompt Engineering, AIML
- **Data & DB:** MySQL, MongoDB, Excel, Tableau, Power BI, Pandas, NumPy, Matplotlib, Seaborn
- **Tools/DevOps:** Git, GitHub, Docker (Multi-Arch), AWS, Linux Scripting, Next.js (Beginner)
- **Other:** HTML, CSS, JavaScript, IoT Protocols and Microcontrollers

Certifications

- **Coursera** : Python for Data Science and AI Development (IBM), Interfacing With Raspberry Pi, IoT Devices
- **Infosys SpringBoard** : IoT Raspberry Pi with Projects, ReactJS

Positions of Responsibility

- **Team Leader – Internal Hackathons (incl. Smart India Hackathon):** Brainstormed ideas, created project workflows, and assigned modules to team members for efficient execution.
- **Head Coordinator – Signodes Club:** Managed the club's official website, added event features, and maintained full version control using Git and GitHub.
- **IoT Workshop Instructor – Signodes Club:** Conducted a live hands-on workshop for 50+ students on IoT tools, components, and real-world applications.
